

PharmaServe is an industry-leading IPS (International Prescription Services) licensed Prescription Refill Service.

Our mission is to provide patients around the world with affordable, high-quality medications, while ensuring the easiest possible ordering & refilling process, quick delivery, & flexible payment options.

Affordable Prices & Wide Range of Medications

We deliver affordable, authentic, & FDA-approved medications. PharmaServe stocks a diverse range of prescription & over-the-counter medications. Our vast range of products include medications for chronic conditions such as diabetes, high blood pressure, asthma, high cholesterol & countless other in-demand medications. We also offer commonly-used products such as antibiotics, eye-drops, & medications for anxiety & depression. Our prices are lower than our online & brick-and-mortar competitors. Furthermore, patients are eligible for up to \$100 in rebates if the price of their medication(s) drops within 30 days of purchase.

Flexible Payment Options

We understand that finances can create barriers for patients in need. To reduce the chance of patients going without their medications, we provide a variety of flexible payment options, including:

- Visa, Master Card, and Discover
- Sezzle (an alternative payment platform allowing patients to make 4 interest-free payments over 6 weeks).

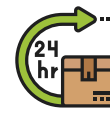

Specialized Handling

 Our Medical-Grade Insulated shipment solutions ensure that insulin, injections, and other medications requiring specialized handling and temperature control are never out of their optimal environment

PharmaServe's discreet, insulated packaging guarantees a moisture-free & contaminate-free environment, ensuring that all medications are delivered to the patients in prime condition.

Quick Delivery

Orders are typically shipped out of our fulfilment centre within 24 hours of processing, & on average arrive 4 business days after shipment.

MEDICATIONS UP TO 70% OFF YOUR LOCAL PHARMACY

Data Security and Protection

Protecting our client's information & privacy is PharmaServe's utmost priority. We maintain the highest standard of confidentiality protection:

PharmaServe.com is EVSSL certified. No information is stored on our website. Our data is safely stored on a standalone multi-layer secured database, ensuring the best protection against data breaches & other privacy issues.

Our top-most layer of security is handled by Norton, a comprehensive device security agent, that guarantees patients' order for up to \$1000.
